Profile

Frontend Developer with 2 years of experience building responsive, scalable, and high-performance web applications using **React JS** and **JavaScript**. Skilled in **Redux**, **TanStack Query**, **Tailwind CSS**, and **Mantine UI** with strong expertise in reusable components, API integration, responsive design, cross-browser compatibility, authentication, lazy loading, animations, and data visualization. Experienced in delivering bilingual English & Arabic applications with localization and RTL support while collaborating closely with UI/UX teams to create seamless user experiences.

Technical Skills

Programming Languages: JavaScript

Frontend Development: React JS, Redux, TanStack Query, REST API Integration, React Hooks

UI Frameworks & Styling: Mantine UI, Tailwind CSS, Responsive Design, CSS3, HTML5

Multilingual Development: English & Arabic Translation, Arabic Key Mapping, RTL Support

Developer Tools: GitHub, VS Code, Figma, Stitch, Antigravity, Cursor

Experience

Software Engineer — 2 Years

August 2024 – Present

Annz Technologies Pvt Ltd.

Chennai, India.

- * Developed scalable and responsive web applications using **React JS** and **JavaScript** across AI, healthcare, and enterprise platforms.
- * Implemented efficient state management using **Redux** and **TanStack Query** for optimized API handling and server-state synchronization.
- * Built reusable, modern UI components with Tailwind CSS and Mantine UI, improving development speed and UI consistency.
- * Integrated secure **REST APIs** and enhanced application performance through lazy loading, memoization, and optimized rendering techniques.
- * Developed bilingual English & Arabic applications with RTL support, Arabic translation, and key mapping for seamless multilingual experiences.
- * Collaborated with UI/UX designers and backend teams to deliver clean, responsive, and production-ready frontend solutions.

Projects

AI-Powered Cyber Threat Detection System | *React JS, Tailwind CSS, Spring Boot, PostgreSQL, GitHub*

- * Developed a real-time cybersecurity monitoring dashboard with intelligent threat tracking, alert management, and analytics visualization.
- * Integrated secure APIs and dynamic reporting modules to improve threat detection efficiency and incident response workflows.

Healthcare Appointment & Management System | *React JS, Tailwind CSS, Spring Boot, PostgreSQL, GitHub*

- * Built a healthcare platform for appointment scheduling, patient management, and doctor coordination with responsive user interfaces.
- * Integrated secure REST APIs and optimized workflows to enhance healthcare operations and user experience.

Pet Clinic & Care Portal | *React JS, Tailwind CSS, Spring Boot, PostgreSQL, GitHub*

- * Developed a pet healthcare management portal with appointment booking, medical history tracking, and clinic administration features.
- * Designed responsive dashboards with bilingual English & Arabic support for improved accessibility and engagement.

Customer Feedback Analysis System | *React JS, Tailwind CSS, Spring Boot, PostgreSQL, GitHub*

- * Created an interactive feedback analysis platform with real-time dashboards, survey tracking, and data visualization capabilities.
- * Implemented API-driven analytics and reporting modules to improve customer insight analysis and engagement monitoring.

Smart Emergency Service Platform | *React JS, Tailwind CSS, Spring Boot, PostgreSQL, GitHub*

- * Developed a real-time emergency response platform with service request handling, live tracking, and coordination functionalities.
- * Built responsive dashboards and integrated secure APIs for faster and more efficient emergency management operations.

Education

Adhiyamaan College Of Engineering, Hosur

Master of Computer Applications.

CGPA: 9.60

August 2022 – June 2024

Gonzaga College Of Arts & Science For Women, Krishnagiri

Bachelor of Computer Applications.

CGPA: 8.20

June 2019 – May 2022

Awards & Recognition

Shining Star Award (2025) - Recognized for delivering impactful frontend solutions across multiple projects, driving seamless user experiences, faster development workflows, and enhanced application performance.
